Congratulations!

Dear Samhitha,

Congratulations! Your student, Shreya Mogulothu, won an inaugural [Maryam Mirzakhani AMC 10 Award](#) as one of the five top-scoring female students on the AMC 10 A in the New Jersey [section of the MAA](#). We at the Mathematical Association of America are very proud of Shreya's achievement.

To recognize Shreya's dedication to mathematics and problem solving, she will soon receive a certificate honoring her success. Please forward this email to Shreya and ask her to complete [this form](#) by **Friday, March 13** with her preferred mailing address where we can send this certificate.

MAA will publish a press release honoring all of The Maryam Mirzakhani AMC 10 A Prize & Awards winners on **March 24, 2020**. When Shreya completes the form linked above, she will confirm her information (name, school, hometown, grade) as it will appear in the announcement.

Before the big announcement on **March 24**, please do not post or share the information about Shreya's award on any public forums (like Facebook or AoPS) or with members of the media. If Shreya has a local news outlet or school administrator she would like us to share the news with, she can send us their contact information.

We know that mathematics will continue to be a part of Shreya's future success, and thank you for administering the MAA American Mathematics Competitions.

Sincerely,

A handwritten signature in black ink that reads "J. Barton".

MICHAEL PEARSON
MAA Executive Director

MAA AMC
American Mathematics Competitions

Dear Shreya Mogulothu -

Congratulations on a job well done!

The Mathematical Association of America is excited to present this certificate to you for your outstanding achievement on the AMC 10 A competition. Every year, more than 300,000 students take our MAA AMC competitions. We are thrilled to acknowledge the top-scoring students each year.

This certificate was made possible by Meera Desai. She's a gifted and talented young woman who saw a gap in mathematics and created her own organization, AwesomeMathGirls.org, to help encourage more girls to participate in math. She also participated in MAA AMC just like you, for 5 years, scoring well on the USA(J)MO and USAMO. She now pursues her passion for math and related fields as a student at Stanford University. Thanks to Meera's inspiration, MAA is now honoring the top-scoring AMC 10 A female to help inspire the next generation of mathematicians.

"I am really inspired by your mathematical excellence in AMC 10 A. The future world of mathematics is gender harmonized and I am excited that you will serve as a role model for many aspiring female mathematicians." - Meera Desai

We hope you'll continue to pursue your mathematical dreams and stay connected to MAA for access to resources, inspiration, and guidance throughout your career.

On behalf of all of us at MAA,

Congratulations!

Jennifer S. Barton
